

THREE MILE CANYON FARMS

Digester/Irrigation Internship Program

Overview

Threemile Canyon Farms Irrigation department offers a verity of opportunities in regards to their internship program. Below you will find a list of operations that are involved in the irrigation or digester department and it will be up to the intern and the intern's interest of what path they choose. Interns may choose multiple operations and/or may be asked to do multiple operations.

- Irrigation/Digester System Operator
- Welder
- Computer Programming
- Network Engineering
- Industrial Automation
- Low Voltage Electrical work
- Pump Maintenance
- Pipe System Design
- Solid Modeling

Special Project

Near the end of the internship the individual will be tasked with a specific project that falls into one of the above categories. The project will be directed by the Irrigation manager or IT manager and must be complete by the end of the internship.

Salary

Interns will receive a \$5,000 scholarship that is paid to the school that they attended upon completion of the internship program. They will also receive Oregon's minimum wage throughout the work period for their first internship; every year there after they will receive a \$1.00 per hour raise on top of the pervious years wages.
